## FOA Certified Fiber Optic Technician

### Overview

The FOA (Fiber Optic Association) is a non profit professional society. Their charter is to develop standards for training and certification of fiber optic technicians working within the industry. The FOA only approves the best schools and training centers that can maintain the highest quality in their training programs.

The FOA approves training at the introductory level, advanced level and specialist level. The FOA certification is widely recognized within the industry by virtue of its unbiased, non vendor specific training and comprehensive examinations leading to certification.

The CFOT certification is the ideal entry level program for the fiber technician and will provide the basic underpinning knowledge of fiber technology and fiber networks along with the crucial skills to install and test fiber optic networks to accepted industry standards.

### Expected Accomplishments

- Gain knowledge of how fiber optics are used in communication
- Describe the typical components both passive and active found in optical fiber networks
- Health and Safety
- Understand Installation Standards and how they are applied (Practical Work)
- Use of fiber optic test equipment, standards and practical field use. (Practical work)

### Course Outline

- Overview
- Fiber Optic Basics
- Applications
- Components
- Safety
- Codes and Standards
- Planning and Design
- Tooling
- Installation practices
- Testing
- Hands on exercises

### Why choose Etisalat Academy?

While many telecom training organisations bring PowerPoint slides to a skills-oriented programme, our training facility features the purpose-built labs and workshops that will get your team to “walk the talk”. We have partnered with major telecom manufacturers and built industry alliances across the globe to bring you the latest and the greatest in telecom strategy, technology and equipment. Whether you’re looking for a vendor-neutral course on a cutting-edge technology, or a bespoke training programme that equips your team with product-specific competencies and skills, here at Etisalat Academy we’ve got the expertise that will bring the desired outcome.

### About Etisalat Academy

Etisalat Academy is the largest single-source provider of training and development solutions in the Middle East. For 30 years we have been providing consultancy and human capital development services to telecoms, government agencies, oil & gas companies, financial institutions and organizations across all industries and business sectors. Our solutions range from training and development programs in business, technology and leadership, to consultancy services in the areas of recruitment, team building, performance management, assessment centers and career development. Based in the United Arab Emirates and operating a 1,200,000 square feet training facility in Dubai, our partner network spans five continents and delivers world class training solutions to customers in Afghanistan, Bahrain, Egypt, India, Iran, Iraq, Kuwait, Libya, Nigeria, Oman, Pakistan, Qatar, Saudi Arabia and Sudan.
